SUBJECT INDEX

A

Abortion, spontaneous, occupational factors, 1238
Absenteeism
  effect of corporate fitness program, 18
  excess, smoking and, in department of health, 33
Accidents
  hospitalizations, US Navy, 269
  traumatic workplace deaths, Allegheny County, Pennsylvania, 1983 and 1984, 100
Aerobic capacity, correlation with occupational energy expenditure, Brazilian workers, 509
Agent Orange, soft tissue sarcomas, case comparison group analysis, Vietnam veterans, 1215
Agriculture, pesticide exposure, biological monitoring of workers, 619, 628
AIDS
  occupational physician and (Editorial), 517
  risk of seroconversion for, San Francisco health workers, 821
  transmission in workplace, employer policies and guidelines (OM Forum), 855
Airflow, limitation, asbestos and, 817
Airway disease
  asbestos exposure and, 817
  obstructive, as risk factor for asbestos-associated malignancy, 82
Alcoholism, house staff physicians, 79
Allergy
  laboratory animals
    epidemiologic study, 1151
    preemployment screening, 1158
4-Aminobiphenyl, exposure assessment, analytical methods, 643
Amputations, traumatic, workplace, 480
Armed forces workers, US Navy, hospitalizations for accidents and injuries, 269
Arsenic, cumulative exposure, relationship to respiratory cancer among copper smelters, 296
Asbestos
  exposure
    airflow limitation and, 817
    risk of mesothelioma (Letter), 808
    malignancy, obstructive airway disease as risk factor, 82
Automobile industry, colon cancer (Letter), 264
Aviation industry, commercial airline pilots, stress coping strategies, 49

B

Back injury, low back pain in nurses (Letter), 461
Biological exposure index, as complement to TLV, 578
Biomonitoring, occupational carcinogenesis, 1117
Birth weight, low, unexplained, geographic distribution, 728
Black workers, glucose 6-phosphate dehydrogenase deficiency, risk of exposure to oxidant gases, 473
Body fluids, bacterial mutagenesis assay, detection of environmental exposure, 647
Book Reviews
  ABM—Directory of Certified Preventive Medicine Physicians, 186
  American Heart Association—Abstracts. 58 Scientific Sessions of the American Heart Association, November 14, 1985, 190

  Toxic Susceptibility: Male/Female Differences, 799
  Vitamins and Minerals: Help or Harm?, 800
  Working with Backache, 186
Brazilian workers, correlation between aerobic capacity and occupational energy expenditure, 509
Breath analysis
  occupational exposure monitoring, 593
  volatile organic compounds, environmental and occupational exposure determined by, 603
Bronchoalveolar lavage, bioassay for plutonium inhalation exposures, 492
Brucellosis, meat workers, effect of rate of slaughter, 445
Burns, hydrofluoric acid, treatment (Letter), 804

C

Cancer
  asbestos-associated, obstructive airway disease as risk factor, 82
  bladder
    management of asymptomatic workers at high risk, 13
    screening, Du Pont Chambers Works, 1011
    screening, workers exposed to suspect carcinogens, 1017
  colon, automobile industry (Letter), 264
  colorectal, screening, pattern makers, 704
  control, ICWU education and evaluation program, 226
  gastric and lymphosarcoma, wood and pulp workers (Letter), 264

Cancer—continued
lung
causes, interactions between smoking and occupational exposures, 110
female cosmetologists, 291
Mayo screening program, 746
medical screening, perspective and strategy, 714
mesothelioma, asbestos workers (Letter), 808
mortality, white males in meat industry, 23
prevention, National Cancer Institute research program, 902
respiratory, in copper smelters, relationship to cumulative exposure to arsenic, 296
sarcoma
soft tissue, chemical workers (Letter), 804
Vietnam military personnel, 1215
screening, evaluation, 687
Capacitor workers, exposure to polychlorinated biphenyls, spirometric findings, 453
Carbon, fibers, subchronic inhalation toxicology, 373
Carbonless copy paper, controlled exposure, upper respiratory irritation, 415
Carcinogen
bladder, screening exposed workers, 1017
exposure, biomonitoring of workers, 1117
Cathode ray tubes: *see* Visual display terminals
Charcoal broiling, mesquite wood, respiratory effects, 1181
Chemicals
exposure, biological monitoring, 558
monographs on human exposure (Letter), 1202
Chemical workers
exposure to dinitrotoluene, heart disease and, 811
ICWU cancer control education and evaluation program, 226
mortality study, 438
soft-tissue sarcoma (Letter), 804
Chemists, mortality, historical cohort study, Allied Corporation, 1185
Chest, radiographic screening, effectiveness, 998
Child labor, Nigeria, sociomedical aspects, 46
Chlordane, manufacturing, mortality, update, 497
Cholinesterase, activity determinations, pesticide exposure, agricultural workers, 619
Chromosomes, alterations, exposure and effect markers, 1112
Coal dust standard, coal workers, x-ray screening program and, 741
Coal workers, x-ray screening program, coal dust standard evaluation and, 741
Computer
health information system, description and capabilities, 684
literature searching for occupational medicine, 370
Cooks, broiling, mesquite wood charcoal, respiratory effects, 1181
Copper smelters, cumulative exposure to arsenic and relationship to respiratory cancer, 296
Coronary artery disease, screening, exercise stress testing, asymptomatic persons, 1020
Corporate policy, role in control of reproductive hazards in workplace, 193
Cosmetologists, female, lung cancer, 291

D

Data base analysis, audiometric, application of techniques, 1055
Defensive medicine, costs (OM Forum), 1132
1,2-Dibromo-3-chloropropane, reproductive toxicity, 7-year follow-up, 1145
Dinitrotoluene, exposure, heart disease and, 811
Disability
low-back, radiography screening for, 995
pensions, gastric and duodenal ulcers, occupational factors, 87
screening criteria, 940
Discrimination, medical screening and, 924
Dosimetry, molecular, biomonitoring of workers, 1117
Drug testing, workplace, legal considerations, 825

E

Ecogenetics, historical foundation and current status, 1096
Economics, notification and medical screening, high-risk workers, 757
Education and training
effects of corporate health promotion program, 285
health and safety programs for small businesses (OM Forum), 73
ICWU cancer control education and evaluation program, 226
Electrical workers, PCB serum levels, assessment of occupational correlation, 1177
Employee health care services, guidelines in health care institutions, 518, (Letter) 1203
Employees, medical surveillance, OSHA regulations, 913
Employers, drug testing, legal considerations, 825
Encephalopathy, organic solvent-induced, industrial painters, 119
Endotoxins, workplace (OM Forum), 75
Environmental exposure, detection, bacterial mutagenesis assay, human body fluids, 647
Epidemic psychogenic illness, telephone operators' building, 42
Epidemiology
accidental injury hospitalization in US Navy, 269
health insurance claims of petrochemical employees, 237
risk of brucellosis in meat workers, 445
traumatic amputations in workplace, 480
Ethics
biological monitoring in the workplace, 935
biomedical surveillance, individual rights and, 958
drug screening in the workplace, 1252
occupational screening programs, 930
Examination
periodic monitoring, goals, uses, and outcome, 967
preplacement
goals, uses, and outcome, 967
medical center workers (Letter), 1189
Exercise stress testing, coronary artery disease screening, asymptomatic persons, 1020
Exposure
chlorinated hydrocarbon solvents, biological monitoring, 583
heavy metal, x-ray fluorescence measurement technique, 609
industrial chemicals, biological monitoring, 558
toxic substance, human monitoring, policy considerations, 563
Eye baths, water temperature limits (OM Forum), 191

F

Fecal hemoccult testing, colorectal cancer, sensitivity, compared with flexible sigmoidoscopy, 709
Fetus
early loss detection, pilot study, 1069
nitroglycerine effect (OM Forum), 1130
Fire fighters, energy expenditure of simulated stair climbing, 282
Fitness
corporate program, effect on absenteeism and health care cost, 18
resources, related to occupational health program (OM Forum), 73
Flexible sigmoidoscopy, colorectal cancer screening, sensitivity, compared with hemoccult testing, 709
Forced expiratory volume, shift change measurement, spirometer temperature effect, 1222
Formaldehyde, exposure in healthy nonsmokers, acute pulmonary response, 420

G

Genetic screening
evaluation, epidemiological approach, 1108
occupational programs, ethical concerns, 930
Guest Editorial, 543, 901, 1093

H

Hand injury, occupational, risk factors, 36

Hazardous waste, medical surveillance of workers, 674
Health care
corporation, cost containment and disease prevention, 502
cost, effect of corporate fitness program, 18
prepaid, workers'compensation cost-shifting and, 1174
psychosocial aspects of work environment, 384
Health care institutions, guidelines for employee health services, 518
Health care workers
AIDS-exposed, seroconversion risk, 821
occupational health hazards, treatment by hospital-based employee health service, 241
preplacement examinations (Letters), 1189
vaccinations (OM Forum), 75
Health information, computerized system, description and capabilities, 684
Health insurance
claims, petrochemical employees, 237
cost, life-style related to, 1165
role of medical screening and monitoring, 765
Health protection, worker, role of medical examination, 553
Health risks, prevalence, employed population, 217
Healthy worker effect, 425
bias elimination (Letters), 1189
extent, persistence and constancy, for causes of death, 348
historical roots, 343
Hearing conservation program, evaluation, audiometric data base analysis, 1055
Heart disease, workers exposed to dinitrotoluene, 811
Heavy metals
biological monitoring for, practical concerns, 615
in situ assay, x-ray fluorescence technique, 609
Hepatitis B, risk in hospital personnel, 276
Hepatotoxicity, screening tests, evaluation, 1034
Herbicide, exposure, soft tissue sarcomas in Vietnam veterans, 1215
Hospitalizations, accidents and injuries, US Navy, 269
Hospital workers, risk of hepatitis B, 276
HTLV-III/LAV: *see* AIDS
Hydrofluoric acid, burns, treatment (Letter), 804

I

Immunoassay, as screening tool, industrial toxicants, 589
Individual rights, biomedical surveillance and, 958
Industry
drug screening (Editorial), 1239
insurance, loss control and, 768
medical surveillance establishment, problems and procedures, 772
occupational health examinations, method of development, 967
screening prevalence, NIOSH report, 906
Infants, low birth weight, unexplained, geographic distribution, 728
Injuries
traumatic amputations, workplace, 480
video display terminal-associated (OM Forum), 1130
Intervention, high-risk occupation, demonstration project, 719
Isocyanates, biologic effects (Letter), 265

L

Laboratory animals
allergy to
epidemiologic study, 1151
preemployment screening, 1158
Law and litigation, reproductive hazards in workplace, 103
Legal proceedings, screening data as evidence in, 946
Legionella, exposure, one-time screening, electric power company, 670
Leukemia, oil refinery workers, case-control study, 1169
Life-style, health insurance cost related to, 1165
Loss control, insurance industry and, 768
Low-back, radiographic screening, effectiveness, 998
Lung: *see also* Pulmonary function
pulmonary dysfunction and susceptibility, assessment methods, 664
pulmonary function screening, occupational health, 656

M

Maritime industry, medical preparedness of seafarers (Editorial), 53
Mayo program, lung cancer screening, 746
Meat industry, cancer mortality in white males, 23
Meat workers, brucellosis risk, effect of rate of slaughter, 445
Medical records, noncompany physicians (OM Forum), 405
Medical surveillance
biological, social, and ethical parameters, 572
employees operating resource recovery plant (OM Forum), 72
hazardous waste workers, 679
medical monitoring and, differentiation, 569
Medical workers, preplacement screening, follow-up, 451
Mercury, urinary concentration, correction by specific gravity, osmolality, and creatinine, 354
Mesquite, broiling, respiratory effects, 1181
4,4′-Methylenebis(2-chloroaniline), urinary monitoring, efficacy, 637
Methyl isocyanate, employees with potential exposure, mortality (Letter), 243
Methylmethacrylate, systemic reaction, in operating room nurse, 196
Military personnel, soft tissue sarcomas, case comparison group analysis, 1215
Mining workers, perlite, chest radiographs and pulmonary ventilatory function, 199
Monitoring
ambient, benzene, 1051
biological
benzene, 1051
chlorinated hydrocarbon solvents, 583
ethical issues, 935
exposure index, 578
heavy metals, practical concerns, 615
industrial chemical exposure, 558
occupational disease liability and, 921
pesticide exposure, agricultural workers, 619, 628
proposed principles, workplace, 547
relevance, prevention of work-related disease, 544
synthesis of papers relating to, 1984 conference, 782
human, policy considerations, 563
medical, surveillance and, differentiation, 569
occupational exposure, breath analysis, 593
urinary, 4,4′-methylenebis(2-chloroaniline), 637
Mortality
predictors, symptom reports and, paper workers, 849
research and development personnel, historical cohort study, Allied Corporation, 1185
Mutagen, exposure, detection by bacterial assay, human body fluids, 647

N

National Cancer Institute, cancer prevention, research program, 902
Nerve stimulator, transcutaneous, electrical, assessment of peripheral neuropathy, 1219
Neuropathy
asymptomatic, screening, occupational populations, 975
peripheral, screening device for assessment of, 1219
toxic and entrapment, interaction, vibration perception thresholds, 991
Neurotoxicity, organic solvents (Editorial), 126
NIOSH, occupational hazard survey, prevalence of screening in industry, 906
Nitroglycerine, effect on pregnancy and fetus (OM Forum), 1130
Nonsmokers, healthy, acute pulmonary response to formaldehyde exposure, 420
Notification
economics of, high-risk workers, 757
problems, high-risk workers, 951
Nuclear fluorescence, screening, improved technique, 1004

Nurses
low back pain (Letter), 461
occupational health, vaccination against hepatitis B, 804
operating room, systemic reaction to methylmethacrylate, 196

O

Occupation
high risk
economics of notification and medical screening, 757
intervention, 719
Occupational disease, liability, biological testing and, 921
Occupational ecogenetics (Guest Editorial), 1093
Occupational energy expenditure
correlation with aerobic capacity, Brazilian workers, 509
factor in disability pensions for gastric and duodenal ulcer, 87
simulated stair climbing for fire fighters, 282
Occupational exposure
detection, bacterial mutagenesis assay, human body fluids, 647
interaction with occupational exposures in causing lung cancer, 110
Occupational hazards
alcoholism in house staff physicians, 79
health care workers, treatment by hospital-based employee health service, 241
posttraumatic stress disorders, 365
Occupational medicine
computer search, 370
history and practice in Federal Republic of Germany, 212
specialty, establishing eligibility for examination, 303
Occupational mortality
cancer, white males in meat industry, 23
chemical workers, 438
employees with potential exposure to methyl isocyanate (Letter), 243
extent, persistence, and constancy of healthy worker effect, 348
healthy worker effect, 425
heart disease in workers exposed to dinitrotoluene, 811
petroleum workers, update, 514
radiologists and pathologists in Radiation Registry of Physicians, 91
workers manufacturing chlordane, update, 497
workplace trauma, Allegheny County, Pennsylvania, 1983 and 1984, 100
Occupational neurology, entrapment and toxic neuropathies, vibration perception thresholds and, 991
Occupational physician, AIDS and, 517
Occupational selection, historical roots of healthy worker effect, 343
Office workers
organophosphate poisoning, 434
upper respiratory irritation from controlled exposure to carbonless copy paper, 415
Oil refinery workers, leukemia among, case-control study, 1169
Olfactory function, assessment in industrial setting, 453
Organic compounds, environmental and occupational exposure, breath measurement, 603
Organic solvents
encephalopathy in industrial painters, 119
neurotoxicity (Editorial), 126
Organophosphates
poisoning in office workers, 434
production workers, inhibition of esterase activity and undercounting of circulating monocytes, 207
OSHA, medical surveillance, regulations, 913
Oxidant gases, exposure, risk in glucose 6-phosphate dehydrogenase deficiency, 473

intact, monitoring of, agricultural workers, 628
malathion, physical and psychological effects following exposure, 377
organophosphate poisoning in office workers, 434
reproductive toxicity, 7-year follow-up, male workers, 1145
Petrochemical workers, health insurance claims, 237
Petroleum workers, mortality, update, 514
Physicians
house staff, alcoholism, 79
mortality, radiologists and pathologists in Radiation Registry of Physicians, 91
Plutonium, inhalation exposure, bronchoalveolar lavage, 492
Polychlorinated biphenyls (PCBs)
exposure in capacitor workers, spirometric findings, 453
serum levels, occupational correlations, electrical workers, 1177
Posttraumatic stress disorders, occupation-induced, 365
Preemployment examinations, health, medical center workers, follow-up, 451
Pregnancy
early detection, pilot study, 1069
nitroglycerine effect (OM Forum), 1130
visual display units and, Montreal survey, 1232
Preventive screening program, prevalence of health risks in employed population, 217
Production workers
chlordane manufacturing, mortality, update, 497
inhibition of esterase activity and undercounting of circulating monocytes, 207
Protective equipment
bulletproof vests (OM Forum), 191
employees packaging organophosphorus compounds (OM Forum), 71
vapor-barrier garments, heat stress, 411
Protein adduct, formation, surveillance of carcinogen exposure and, 643
Pulmonary function: *see also* Lung
capacitor workers exposed to polychlorinated biphenyls, 453
effects of formaldehyde exposure in healthy nonsmokers, 420
subchronic inhalation of carbon fibers, 373
testing, guidelines, worker screening, 1081
ventilatory, perlite workers, 199
Pulp and paper mill workers
gastric cancer and lymphosarcoma (Letter), 264
